- C#
- MYSQL, SQL

SUMMARY

Hi, I am Doğukan. I was born in Bursa, Turkey in November 1999. I started coding in 2015 at highschool. I graduated from the department of Database Technologies at High School. I have also learned web technologies such as HTML, CSS, JS, PHP and C# at High School. After that, I decided to improve myself in the field of front-end web development. I generally use Next.js and Tailwind CSS in my projects. The technologies I use vary according to the scope of the project.
